English

Reading and Comprehension

Read a story by any of the following author and do a project .It will enhance your reading, writing and comprehension skills.

- Sudha Murthy
- R.K. Narayan
- C. Ruskin Bond
- Rudyard Kiplings

On an A-4 sheet write a **REPORT** on the book read by you .Mention the following:

- Title of the book
- Author
- What the book is about
- Why do you like the book
- Something about the most interesting character
- Stick at least two or three pictures related to the book

By encouraging children to read books by a variety of authors, the assignment also helps to expose them to different cultures and perspectives.

- **Handwriting practice:** Cursive writing practice on Mondays and Wednesdays in your cursive writing book.
- **Revision:** Revise all work done.

ENVIRONMENTAL STUDIES

- Prepare any dish using mangoes with your parents.
- Write the recipe and stick pictures of You making the dish.
- Do it on a A3 paper.

MATHEMATICS

Hey there, Grade 5 Math Wizards,

This summer, let us have some exciting math fun! While the sun shines bright, we're going on a

journey through numbers, shapes, and angles. Our summer holiday homework isn't just about

doing math problems—it's about having fun while learning new things! We'll be exploring large

numbers, and also discovering the world of shapes and angles. So get ready for a summer full of

math adventures!

1.Project ;Angle Hunt

Welcome to the "Angles in Daily Life" Scrapbook Project ! This project will not only deepen

your understanding of geometry but also sharpen your observation skills as you explore the

angles that surround us everyday.

In this scrapbook, you will document your real-life angle adventures through sketches ,

photographs, and observations. Take your notebook and camera with you as you explore your

home, and neighborhood, on the lookout for acute, obtuse and right angles, Capture the

angles you find in creative sketches or snap photos to bring them to life. So discover the hidden

geometry of our daily lives!

2. Print and solve the Maths worksheets given as pdf. Solve it according to the days

mentioned. They will be assessed as Multiple Assessment. Sheets to be properly filed for the

Portfolio.

3. Understanding multiplication tables is incredibly important in our daily lives for many

reasons.. It helps us quickly solve math problems in our heads, making tasks like shopping

easier. Secondly, knowing multiplication is crucial for managing money wisely. By learning

multiplication, we also become better problem-solvers and improve our memory and critical

thinking skills. So, mastering multiplication tables not only helps us succeed in school but also in

our lives outside of it.

So please revise and master the multiplication tables from 2 to 16.

Computer

1. Type about different types of Computers with their pictures in Ms Word on A4 size sheet. Refer to Lesson – 1 of Computer Book.
2. Type and insert pictures of any five IT professionals and their contribution in the field of Computers in Ms Word. on a A4 size sheet.
3. Revise Lesson – 1 and Lesson – 5 of Computer book.
